

# Zanuarestu Ramadhani

## Software Developer

Yogyakarta, Indonesia | +62 858 6787 9057 | [zanua.restu@live.com](mailto:zanua.restu@live.com) | [LinkedIn](#)

### SUMMARY

---

Skilled Software Engineer with extensive experience in web development and the latest technologies. Passionate about continuous learning and delivering high-quality results. Possesses strong teamwork and communication skills, excelling in discussions and problem-solving. Thrives in dynamic, creative environments that foster collaboration and innovation.

### EXPERIENCE

---

#### VA For Everyone – Fullstack Developer

Remote, Indonesia (May 2025 - Present)

- Collaborate directly with clients to gather requirements, define project scope, and translate business needs into real world applications.
- Lead full project delivery from initial planning and development to deployment, maintenance, and project handover.
- Develop and maintain high-performance websites for international brands, ensuring reliability, responsiveness, and smooth user experience during high-traffic periods.
- Manage end-to-end development workflows including system design, technical analysis, implementation, deployment, and ongoing support.
- Integrate third-party services and connect multiple applications through APIs to streamline workflows and improve system interoperability.
- Adapt quickly to different client workflows, tools, and technical environments while maintaining code quality through Agile practices, CI/CD pipelines, and testing standards.

#### R/GA – Software Engineer

Remote, Indonesia (March 2023 - May 2025)

- Built websites for multiple well-known global brands, ensuring stability and optimal performance during high-traffic access.
- Managed multiple projects simultaneously while maintaining timely delivery and consistent development quality.
- Contributed to digital products used by international brands such as Nike, Google, and Sony, focusing on impactful and user-oriented solutions.
- A quick learner, able to adapt to different workflows and utilize various tools and technologies to meet project requirements, while adhering to high standards such as Agile methodology, strict code standards, CI/CD pipelines, and comprehensive unit/integration testing.

#### Talentvis Singapore Pte Ltd – Senior Backend Developer

Yogyakarta, Indonesia (November 2021 - March 2023)

- Analyzed and developed the primary corporate website (Talentvis), ensuring optimal performance and scalability.
- Acted as a system analyst for the main ERP application, improving workflow efficiency and system reliability.
- Developer and system analyst for the corporate training course platform, enhancing learning management capabilities and user experience.
- Designed and implemented employee-centric e-commerce applications, focusing on functionality, user experience, and system performance.

## PT Gamatechno Indonesia – Fullstack Web Developer

Yogyakarta, Indonesia (June 2016 - October 2021)

- Designed and developed a Point of Sales system for a regional bakery, handling 1,000–5,000 transactions daily.
- Led the development and analysis of a Point of Sales system for a national temple tourist attraction, managing thousands of transactions per day.
- Developed the General Affairs (GA) module of an ERP system for one of Indonesia's largest state-owned air traffic services and airport business companies.
- Developed and implemented a Customer Relationship Management (CRM) application to enhance customer engagement and operational efficiency.

## AREA OF EXPERTISE

---

- **Artificial Intelligence:** Proficient in implementing AI solutions, including **Retrieval-Augmented Generation (RAG)**, **text generation**, and **image generation**, utilizing state-of-the-art models and frameworks.
- **Backend Development:** Proficient in designing and implementing full-stack web applications using state-of-the-art technologies, with expertise in **Node.js**, **PHP**, **C#**, **Ruby on Rails**, and **Python**. Skilled in working with both **SQL (PostgreSQL, MySQL)** and **NoSQL (MongoDB)** databases. Capable of implementing industry-standard architectures, including **RESTful APIs**, **WebSockets**, and other real-time communication protocols.
- **Frontend Development:** Experienced in building modern web applications using **React**, **Vue**, **Angular** and **Svelte**, along with fundamental web technologies like **HTML**, **CSS**, and **JavaScript**. Proficient in full-stack frameworks such as **Next.js**, and **Nuxt.js**. Skilled in implementing animations and interactive UI using libraries like **CSS Animations**, **React Spring**, **Framer Motion**, and other animation frameworks.
- **DevOps:** Experienced in implementing CI/CD pipelines using **GitHub Actions** to automate build, testing, and deployment workflows. Proficient in containerized application development with **Docker** and experienced in deploying and managing cloud-based infrastructure using **Microsoft Azure**, **Google Cloud**, and **Amazon Web Services** to support scalable and reliable web applications.
- **Agile Development:** Proficient in Agile methodologies such as **Scrum** and **Kanban** to improve team collaboration and development efficiency. Experienced in sprint planning, daily stand-ups, and retrospectives, utilizing tools like **JIRA**, **Asana** and **Trello** for effective task management and progress tracking.

## EDUCATION

---

### University of Amikom Yogyakarta

Bachelor's Degree in Computer Science

GPA: 3.92/4.00

## LANGUAGES

---

- English – Fluent
- Bahasa Indonesia – Fluent
